HAND BUILDING WITH CLAY

Learn to coil, burnish and decorate pottery in the Pueblo Indian tradition. Students will also explore other hand building techniques and kiln firings. Sandy King Martin, studio potter, shares her unique insights that she gleaned from her friendship with world-renown potter Maria Martinez and her family of San Ildefonso Pueblo in New Mexico. Class includes viewings on video of Pueblo potters creating their art and embracing the natural elements:

Earth • Air • Fire • Water.
